

EVENTS & DEMONSTRATION SCHEDULE

Tuesday 10th June					
Time	Company Name	Location	Type of event	Name of product/ brand	Description
10:00	Zwanny Ltd	H15	Product Launch	Micro weir skimmer	We have a new skimmer in the Zwanny range of products - ideal for harbours and marinas
11:00	ASL GRP	A17	Product Launch	Inflatable craft protection system	Showcasing ASL GRP's new inflatable craft protection system, in association with Frydenbo Milpro. Detailed information on the protection levels available, benefits, and how the kit can be customised to suit requirement.
11:30	Loki Dynamics/ Shock-WBV	H2	Product Launch	Loki seat launch	Reception with nibbles provided. Seat demo regarding material and industry place info. Loki seat launch brand new to the market. How the new seat works with the Shock-WBV brand also on the stand. All directors of Loki, Sea Sure and Shock-WBV on site.
12:00	Charity and Taylor	G31	Product Launch	VASCO in a Box - VIAB. portable, immersive, maritime VR training.	VIAB (VASCO in a Box) is portable, immersive, maritime VR training. All the power of VASCO – globally accessible. VIAB allows you to deliver secure high-impact BRM (Bridge Resource Management) and ColRegs training without reliance on local technical infrastructure. A fully self-contained VR bridge simulation training solution housed in a durable case. Designed for environments without reliable internet connectivity, VIAB enables bridge teams to train, assess, and rehearse mission-critical operations at sea or in remote locations. It enables seafarers to safely practice and refine critical decision-making skills in realistic scenarios that replicate the pressures of live operations.
13:00	Electric Outboard	VA7	Demonstration	Momentum M10 10kW (15hp) electric outboard motor on eGuardian 420 workboat	Brand new to the UK market, the Momentum M10 is the lightest 10kW 15hp electric outboard available anywhere. Its instant torque feels more like 25hp off the line, getting most smaller boats on the plane immediately, but at trolling speeds, it can run all day. With no tools required to mount it on a workboat, RIB, tender or sail boat, and with just one cable for both power and data, it's quick and easy to set up and get going while its battery has been designed to stow away in a standard fuel locker. Electric Outboard will be demonstrating the M10 on the water at Seawork giving the UK market its first opportunity to experience the power and usability of this outstanding piece of electric outboard engineering and design.
13:30	Izmir Shipyard	G43	Product Launch	IZ 1540 HDPE Electric	Launch of an electric boat made from HDPE.
14:00	Volvo Penta - Tidal Transit	E5	Memorandum of Partnership		Memorandum of Partnership: Volvo Penta & Tidal Transit. This will be a short on-stand signing ceremony to mark the official partnership between Volvo Penta and Tidal Transit for the construction of the first two CTVs equipped with Volvo Penta's Serial Hybrid Quad IPS system, to be built in Spain. The event will include brief speeches from both parties, followed by the signing of the MoP. The aim is to highlight the technological innovation and environmental impact of the project. The event will be positioned as a key milestone in the maritime decarbonisation journey.
14:00	Watermota Ltd	F2	Product Launch	HYUNDAI DX15 TIER III marine engine	An introduction to the new HYUNDAI DX15 marine engine which will be exhibited on our stand, along with drinks.
14:30	Cetasol	F18	Product Launch	iHelm captain display 2.0	We have launched a new design of our onboard captain display. This new design includes completely new features, unique to the market with three different adaptable operation modes. Repeatable, semi-repeatable or non-repeatable operations will benefit from insights specifically targeted to their needs. With a speed gauge and a fuel gauge, captains will be provided with real-time information supporting them at sea.

EVENT & DEMONSTRATION SCHEDULE

15:00	FloodFighters@ Seawork	Marina	Demonstration		Wessex Rescue technicians intend to give an on-water demonstration of specialist flood and water rescue tactics and techniques. These tactics and techniques will initially use aerial drone and ROV underwater assets to "search" for the "casualty" (adult-size manikin) in the water. Once the casualty is located then a small rescue craft will conduct tactics to rescue and recover the casualty on board. An explanation will be broadcast during the demonstration.
15:30	Goodchild Marine Services	H22, VB30	Product Launch	ORC 156 IPS drive vessel (Volvo Penta and Prior Power Solutions)	15:30 Stand announcement for the launch of the ORC 156 IPS drive vessels in conjunction with Volvo Penta and Prior Power Solutions. 15:45 Commence drinks reception sponsored by Prior Power Solutions 16:15 approx. Alan Goodchild to introduce the relationship with Prior Power Solutions with a few words from one of their team.
Wednesday 11th June					
Time Slot	Company Name	Stand Number	Type of event	Name of product/ brand	Description
10:00	Parkol Marine Engineering Ltd	VB28	Press Briefing	Vessel design and build	Parkol's newbuild vessel, designed by Chartwell. Marine, being handed over to its customer - North East Inshore Fishery Conservation Authority, followed by an exclusive interview for Maritime Journal.
11:00	FloodFighters@ Seawork	Marina	Demonstration		Come and see the live on-the-water rescue demonstration arranged by Professional Rescue and Wessex Rescue. These live-action displays will highlight the latest techniques and equipment in flood and water rescue operations.
11:00	Prior Power Solutions	F26	Demonstration	Volvo Penta IPS 15 Professional Platform Q&A	Discover the Volvo Penta IPS Professional Platform through an exclusive and interactive Q&A. Volvo Penta's application engineer, James McPaul, will be hosting the Q&A with support from dealer Prior Power Solutions. See the lifesize display and learn more about the advanced propulsion system's superior performance, fuel efficiency and manoeuvrability. No need to book - just turn up and ask as many questions as you like!
11:30	Loki Dynamics/ Shock-WBV	H2	Product Launch	The revolutionary SPIIND VR Headset, a seasickness solution	Reception with nibbles provided. Product information and demo with an invite to try it out. Research information and key maritime industry benefits, with the emphasis on wellbeing on board, social responsibility and how this budget friendly option can save money overall.
12:00	Svitzer Marine Ltd	Marina	Demonstration	Svitzer Marine Ltd / Towage operations & services	Water display using one of our Fire Fighting tugs from Fawley Terminals. This will be located off Mayflower Pier and will be demonstrated for approximately 3-5 minutes.
14:30	Berthon Boat Company	VA32	Product Launch	Gemini 1060 Cabin RIB	Launch of the first Gemini 1060 Cabin RIB built by Berthon and Demo of the Gemini 880 TTop RIB.
15:00	FloodFighters@ Seawork	Marina	Demonstration		Wessex Rescue technicians intend to give an on-water demonstration of specialist flood and water rescue tactics and techniques. These tactics and techniques will initially use aerial drone and ROV underwater assets to "search" for the "casualty" (adult-size manikin) in the water. Once the casualty is located then a small rescue craft will conduct tactics to rescue and recover the casualty on board. An explanation will be broadcast during the demonstration.

DEMONSTRATION SCHEDULE

Thursday 12th June

Time Slot	Company Name	Stand Number	Type of event	Name of product/ brand	Description
9:30	BMEEA - British Marine Electrical & Electronics Association	Seawork Event Space	Competition - real-time, practical, judged on the day	Marine Electrical Apprentices Competition 2025	The annual BMEEA Marine Electrical Apprentice Competition makes a welcome third appearance at Seawork.
12:30	FloodFighters@ Seawork	Marina	Demonstration		Wessex Rescue technicians intend to give an on-water demonstration of specialist flood and water rescue tactics and techniques. These tactics and techniques will initially use aerial drone and ROV underwater assets to "search" for the "casualty" (adult-size manikin) in the water. Once the casualty is located then a small rescue craft will conduct tactics to rescue and recover the casualty on board. An explanation will be broadcast during the demonstration.

Daily DiveTank Demonstrations

10:00	Divetank Demo	U14	Demonstration		Helmet Testing KM97 new light brackets & MOD 1 dive hat new comms test
11:00	Divetank Demo	U14	Demonstration	JWA Lift Bag	JWA Lift Bag demo
11:30	Divetank Demo	U14	Demonstration	O3 Drysuit	Diver rescue with O3 dry suit, harness & jacket
12:00	Divetank Demo	U14	Demonstration	Tritex Gauge	Tritex Gauge demonstration
13:00	Divetank Demo	U14	Demonstration	Straub Pipe Coupling	Straub pipe coupling demonstration
13:00	Divetank Demo	U14	Demonstration	Northern Diver R Vest	Diver rescue with Northern Diver R Vest & Dive suit
14:30	Divetank Demo	U14	Demonstration	Tritex Gauge	Tritex Gauge demonstration
15:00	Divetank Demo	U14	Demonstration	JOK II Harness	C-Tecnic - JOK II Harness
15:30	Divetank Demo	U14	Demonstration	Nemo Underwater Tools	Nemo Underwater tools
16:00	Divetank Demo	U14	Demonstration	FIFISH ROV	FIFISH ROV demo from Mantsbrite with AI diver tracking demo
16:30	Divetank Demo	U14	Demonstration		Diver Rescue demonstration

Tuesday 10th June

Time	Company Name	Stand Number	Description
1200 - 1300	EOPSA	L25	Join us for drinks at Happy Hour!
1330 - 1415	FloodFighters@seawork	Seawork Event Space	Networking lunch for Conference attendees
1330 - 1430	Izmir Shipyard	G43	Join us on our stand for a celebratory drink following the launch of our IZ 1540 HDPE Electric vessel.
1500 - 1700	Workboat Association	WB3	Join us for networking and drinks.
1500 - 1700	SMI	SM15	You are warmly invited to a Networking Drinks Reception hosted by the Society of Maritime Industries (SMI) Workboat Working Group and The National Oceanography Centre (NOC). Join fellow professionals from across the maritime engineering, science and technology sectors for two hours of informal networking, conversation and collaboration.
1600 - 1700	WISTA / WIMI Women in Marine Industry	Seawork Event Space	Fizz and friendship - networking with WISTA (Women's International Shipping & Trading Association UK) and Seawork WIMI (Women In Marine Industry) following the panel discussion concerning the Hoegh Osaka car carrier incident..
1630 - 1700	Inland & Coastal Marina Systems	B13	Join us for networking drinks and listen to this engaging session: 'Greening the Grey with Living Seawalls' by Jess Allen, Portsmouth University.
1730 - 1930	Seawork Awards	Waterfront Restaurant	Join us for the Seawork Awards celebrating the array of innovation and the high calibre people and projects in the Commercial Marine Industry. Drinks and canapes included. Tickets available from the Organisers Office.

Wednesday 11th June

Time	Company Name	Stand Number	Description
1100 - 1300	British Tug Owners Association	Meeting Room 1	Private meeting
1300 - 1430	UKHMA	Waterfront Restaurant	UK Harbour Masters Association AGM Lunch (private event)
1500 - 1530	British Marine	L37	Drinks reception and networking.
1500 - 1545	Workboat Association	WB3	Inviting all currently serving and ex-serving personnel to celebrate the signing of the Armed Forces Covenant. We also invite companies that do, or would like to, employ ex-service personnel to network, share experiences and discuss opportunities within the sector. The signing will take place during the event in the company of a VIP.
1500 - 1700	Netherlands Maritime Technology	VB23 - on board SeaZip Vessel	Connect with industry professionals in a relaxed setting on the water. The NL Pavilion brings together 10 leading Dutch maritime companies, showcasing innovation, collaboration, and craftsmanship. The reception takes place on a vessel built by one of the Dutch exhibitors – a proud example of Dutch shipbuilding excellence. The exhibitors of the NL Pavilion welcome guests to join them for this special event, organised in cooperation with NBSO Manchester. Enjoy drinks, conversations, and valuable new connections. We hope to see you on board!
1500 - 1700	MarRi-UK	Meeting Room 1	Private meeting
1600 - 1730	Volvo Penta & Diverse Marine	VB21	BBQ onboard Diverse vessel - Invitation only
1630 - 1700	Inland & Coastal Marina Systems	B13	Please join us for drinks and an insight into 'Harbours & their Masters' with Mark Ashley Miller - enjoy a glass of Guinness!
1730 - 1900	Seawork Cardboard Boat Regatta	Marina	Enjoy live music, a vibrant quayside bar, and delicious food as you cheer on the teams. Everyone's welcome!

CONFERENCE PROGRAMME

Tuesday 10th June

CONFERENCE ROOM 1

09:50 - Get Set for Workboat 2050 - Propulsion systems - the Good, the Bad, and the Reality

Workboats face a complex propulsion evolution, with efficiency, sustainability, and practicality shaping future choices.

Propulsion systems come with individual advantages and trade-offs, shaped by operational demands, vessel design, plus challenging weather and sea conditions.

Our expert speakers from Volvo Penta, HamiltonJet, Servogear, NR Marine and CJR Propulsion will tackle key discussion points on reliability, power, range and manoeuvrability with the realities of capital costs, supply chain challenges, emissions reduction and regulatory pressure.

11:30 - MOD/ HM Government

Join Cdre Carrigan from the National Shipbuilding Office to discuss recent UK government policy developments within the maritime enterprise, and Pete Lagden of DE&S Boats on Defence Reform and how that affects SMEs. Other speakers include the Royal Navy's Category management team and Navy Develop covering the future uncrewed unmanned "Project Cabot".

Commercial enterprise will be covered by the Department for Business and Trade and there will be a 'how to engage with' the Defence and Security Accelerator (DASA) and UK Export Finance.

15:00 - WISTA UK & Seawork's Women in Marine Industry Networking Event

Panel discussion regarding the Hoegh Osaka car carrier incident in Southampton – looking at the overall incident response from key players. The discussion will also highlight the importance of an SCR. Delegates will have the opportunity to learn from Keynote speakers, ask questions during a live panel debate, and enjoy the opportunity to network with fellow industry professionals from 16:00 – 17:00 during a relaxed and informal drinks reception.

CONFERENCE ROOM 2

09:30 - FloodFighters at Seawork

FloodFighters@Seawork will feature presentations on preparing for the consequences of climate changes of flooding and its effects on communities and rescue work.

To close the event, there will be a 'Panel Discussion' of the presenters with questions from delegates – facilitated and moderated by Mr. Roy Harold MBE, Emeritus UK.

14:00 - IMCA - Enabling Maritime Autonomy: MASS Applications, Workforce Readiness, and Industry Impact

Marine Autonomous Surface Systems (MASS) have the potential to transform work at sea as regulatory barriers are removed. This event will explore the different use cases for MASS that will emerge, among energy companies and other end users, and the skills and training needed to enable these technologies to drive improvements in safety, efficiency, and sustainability in marine operations.

15:30 - An Introduction to AI in Commercial Marine Management

AI demystified and explained in human terms by Nigel Taylor, Chief Executive, PerformOS, accompanied by Russ Simmonds, Chief Technical Director.

An overview of AI and how it can drive business efficiencies and reduced OpEx.

How the value of AI lies in practical applications that can deliver results making the most of business overheads to predictive maintenance reducing downtime, route optimization cutting fuel costs, and maximizing operational efficiency.

Wednesday 11th June

CONFERENCE ROOM 1

Decarbonising operations to reduce emissions and costs remains top of the agenda at Seawork. The 2025 conferences share insights and learnings on key themes that are at the forefront of discussions across the industry.

These 2025 free to attend sessions will tackle future fuels with case studies highlighting real world applications and industry learnings; the latest developments in onshore power supply; and how AI and autonomy is helping to optimise performance and deliver efficiencies across fleet technology.

10:00 - Future fuels - Real world applications and industry learnings

Greening operations with the latest developments in sustainable alternative fuels. Moderated by Noel Tomlinson of BMT, speakers include the MCA, ePropulsion, and Jifmar.

11:45 - Onshore Power Supply - Connect, Invest, Decarbonise

Bringing the industry together to unlock the potential of net-zero emissions. Moderated by Roland Teixeira de Mattos of EOPSA, speakers include the ABP, Marine Zero, Tidal Transit and ABB.

14:15 - Driving down OPEX with data driven decisions

How are AI, autonomy, and real-world data driving efficiencies in fleet management? Moderated by Duncan Duffy of Lloyds Register, speakers include the Houlder, Marine AI, Cetasol and Ocean Infinity.

16:00 IMarEST - Small Ships Special Interest Group AGM

The Institute of Marine Engineering, Science and Technology (IMarEST) will be hosting the Annual General Meeting of the Small Ships Special Interest. This meeting is open to all who have an interest in small ships, from industry professionals to maritime enthusiasts. The event will provide a platform for discussion on key challenges and opportunities within the sector, as well as valuable networking opportunities.

CONFERENCE ROOM 2

10:00 - CECA - Delivering Future Floating Offshore Wind

The Civil Engineering Contractors Association is bringing together key stakeholders for a seminar to explore the rapidly expanding Floating Offshore Wind (FLOW) sector. Government, developer and supply chain speakers, including members of CECA's Energy and Marine groups, will explore how the sector can collaborate to deliver outstanding outcomes in this emerging market, including planning to meet the skills challenge, contractual and commercial delivery models, and supporting project consenting. This session is open to all - both CECA members and non-members.

12:15 - UK Harbour Masters Association - AGM

Open only to members.

14:00 - The Workboat Association Safety Forum - Prevention of hand and finger injuries

Join the Workboat Association to discuss and learn about the prevention of hand and finger injuries. Do you have a story to share? Are you a manufacturer of PPE, Safety Guards, or equipment that could help to prevent injury to hands or fingers? Are you a safety professional with experience of the challenge? An employer looking to learn? Or, an employee looking for something that works, whilst also letting you do your job suitably?

The session will bring together knowledge from across the industry and out, with an aim to share best practice, latest concepts and altogether highlight this serious cause of ongoing significant injury within the workplace. This session is open to all Seawork visitors.

15:30 - Maritime UK Solent & Seawork - Schools Leaders

This session is invitation only for Schools Leaders.

MEETING ROOM 1

15:00 - MarRI-UK

Join the MarRI-UK workshop to add your thoughts to shaping the UK National Maritime Roadmap together, on Clean Maritime and Floating Offshore Wind.

MarRI-UK aims to deliver the first version of the UK National Maritime Roadmap in 2025 with our members and partners providing a clear, strategic vision for long-term growth, innovation, and sustainability. It aligns stakeholders, including government, industry, and research institutions, ensuring coordinated efforts to address challenges, such as technological advancements, sustainability, and economic competitiveness.

Thursday 12th June

CONFERENCE ROOM 1

10:30 - Workboat Association Technical Workgroup

Join the Workboat Association Technical Workgroup for an industry open session to discuss the current and incoming changes to the small vessel codes of practice (regulations).

Workgroup Chairman Andy Page will be speaking with Rob Taylor, Code Vessel lead at the MCA, and joined on stage by representatives of industry and the Certifying Authorities, to discuss where things are at with Workboat Code 3 and the publishing of the NEW Sport and Pleasure Code. This session is open to all Seawork visitors - both Workboat Association members and non-members.

CONFERENCE ROOM 2

Commercial Marine's Got Talent - live commercial marine careers showcase for young people including short inspirational talks & lively Q&A sessions

Lively sessions aimed at visiting schools, colleges and universities, with inspirational talks from professionals in the commercial marine industry and featuring video footage of their working days.

The three forty-minute sessions are open to students with pre-planned school, college and university visits. Session timings are 10:15-10:55; 11:05-11:45; and 11:55-12:35
