

Events, Launches, Announcements & Demos

TUESDAY 21 JUNE

Time	Company	Location	Description
1000	Opening Ceremony	Golden Arrow Marine Restaurant	Opening ceremony for the 23rd edition of Seawork
1000	Commercial Marine Conference	Conference Room 1/ Online Session	Get Set for Workboat 2050 - Hydrogen and Clean Growth opportunities - is there a place for hydrogen in the decarbonisation roadmap for the workboat sector?
1000	The Civil Engineering Contractors Association (CECA)	Conference Room 2	CECA - Sector Group Meeting for CECA Flood & Marine Group Sector Group Meeting for CECA Flood & Marine Group (CECA members only) including a networking lunch.
1030 for Heila	Brimmond	Q78	Heila Marine Cranes - Newly exclusive UK & Ireland distributors Marine Cranes.
1100	Volvo Penta	B9	Demonstration - MHO vessel - MHO-Co's new crew transfer vessel CTV will be demonstrating the novel technology onboard, diesel-electric operation, low fuel consumption Dynamic Positioning System-mode and new Human Machine Interface (HMI).
1100	Berthon	VA32	Neander engines - Berthon Power will now add to its portfolio the sale of the world's only 50hp diesel outboard Neander Dtorque 50. Prime applications motor, the for the Neander outboard are in the commercial offshore military, fishing, aquaculture, rescue and charter-marine sectors.
1130	Ocean Safety	B45	Ocean SOLAS Ellipse Liferaft - Ocean Safety will be launching an exciting new extension to its commercial marine liferaft range, offering CTVs, tugboats, ferries and workboats a greater choice when selecting or replacing liferafts to meet safety requirements and regulations.
1130 1200	MoD & DIT Session Sea Sure and SHOCK-WBV	Conference Room 1 G75	MoD Procurement and DIT overview SHOCK-WBV L SERIES suspension seat - Designed engineered & manufactured in Southampton UK, SHOCK-WBV's new Long travel suspension seat, the "L Series", is set to shake up the marine suspension seat market. The L series features the most advanced FOX Float shock absorber to ever be used on a marine suspension seat.
1230	Reygar	B59	BareBOAT 'seatrial' monitoring soln - BareBOAT-Seaerial is a wireless engine monitoring solution that eliminates the need for personnel to enter machinery spaces during commissioning/ sea-trials of Rolls-Royce. Solutions mtu branded engines. It offers safety benefits for commissioning engineers, speeds up commissioning and improves the quality of sea-trial data.
1245	The Civil Engineering Contractors Association (CECA)	Conference Room 2/ Online Session	CECA - Infrastructure Associated with the Marine Environment This session will deliver speaker presentations + a panel discussion representing Freeports (Solent Freeport), investment, and development in the region. This session will be open to both member and non-members."
1300	Hefring Marine	F5	Digital helm - Hefring Marine digitizes helmanship in boats with intelligent decision-support and actionable insights. The solution helps operators and managers make better decisions to ensure a safe, and efficient vessel operation, improves situation awareness, reduce risk of human errors, optimize fuel consumption and reduce life cycle cost.
1300	P&D Marine Services	Seawork marina	P&D Waste Rover - Compact in size, the remote-controlled P&D Waste Rover waste collector can easily access hard-to-reach shallow areas, powered by LiFePO4 batteries the unit is emission free.
1330	Goodchild Marine	VA51	ORC g Boat Contract - Pilot Vessel "Mayflower" is part of a £9 million investment by Associated British Ports. The first of three vessels for Southampton with IMO Tier III engines she is faster and delivers a 40% fuel saving through an innovative forward 'beak' and double chine hull design.
1400	HST	Q27	HST Ella - HST Ella, built in the UK by Isle of Wight yard Diverse Marine, the catamaran's unique hybrid propulsion system drives a high-performance changeable pitch propeller (CPP) system. At low speeds, this allows for silent, zero emissions operation, enabling compliance with port air quality requirements.

1430	Boatchecks	E161	Boatchecks marine software - The digital logbook solution for small commercial vessels and domestic passenger vessels. The software uses a mobile phone app to enable crew to undertake safety and outline maintenance checks to report back to a desktop interface. The software complies with the relevant vessel type regulations.
1500	Volvo Penta	B9	Demonstration - MHO vessel - MHO-Co's new crew transfer vessel CTV will be demonstrating the novel technology onboard, diesel-electric operation, low fuel consumption Dynamic Positioning System-mode and new Human Machine Interface (HMI).
1500	ORE Catapult	Conference Room 2/ Online Session	ORE Catapult & European Marine Energy Centre (EMEC) Ltd - TIGER Supply Chain event: Tidal energy opportunities for supply chain in the Channel region
1500	SeaMachines	Q62	Remote command from stand Q62 of autonomous vessel in US waters - AI-ris is Sea Machines' proprietary system to classify & track targets via optical sensors (day light video cameras) using computer vision and artificial intelligence, augmenting existing marine sensor technologies, enabling greater performance via a passive (non-emitting) sensor capable of achieving new levels of situational awareness.
1530	Izmir Shipyard	VA39	1Z 865 HDPE - IZ 865 HDPE boat provides excellent stability and high performance even in rough sea conditions due to its twin HDPE hull structure; offering very high safety standards, indestructible and unsinkable, withstanding hits and impacts. It will even stop the boat from running aground.
1600	Norcom Technology	E145	SeaTrak - Thames AIS compliant - SeaTrak electronic charting software runs on any PC or Windows tablet, updated to comply with Thames AIS. SeaTrak can be used with detailed electronic charts of the Thames as well as electronic charts covering western Europe and further afield.
1630	Manor Marine	Q43	Embargoed announcement Embargoed announcement
1800	Mercator Media	Golden Arrow Marine Restaurant	The European Commercial Marine Awards (ECMAs) - The European Commercial Marine Awards (ECMAs), incorporating the Innovations Showcase Category Awards, attracts entries from across Europe, recognises the depth of excellence in commercial marine and celebrates the outstanding individuals and innovative companies that comprise this vibrant and productive industry sector.
WEDNESDAY 22 JUNE			
0900	Commercial Marine Conference	Conference Room 1/ Online Session	Commercial Marine Conference - Uncrewed Surface Vessels (USV's) - USV's Growing Role in the Commercial Marine Market. Paid delegate attendance
1000	The Civil Engineering Contractors Association (CECA)	Conference Room 2	CECA - Sector Group Meeting for CECA Environment Group - Sector Group Meeting for CECA Environment Group (CECA members only) including a networking lunch.
1000	Simplex Engineering	D55	Delta-Xero - nano filtration technology - The unique nano filtration technology from Delta-Xero, extends your oil service life ten-fold. Using the patented capillary media, your oil will be cleaner than when it was first installed.
1030	Amco Veba Marine	Q54	Hyva 40 TM family model addition to new generation line - Amco Veba Marine has added the 40tm family to its successful NEW GENERATION Line cranes. A structured design and build process, from concept to field operation, has created these NEW GENERATION cranes which cover all possible applications."
1100	RS Electric Boats	VA41	Partnership agreement with Cheetah Marine - Following the successful launch of the Pulse 63 electric RIB, RS Electric Boats is bolstering its electric boat offering by partnering with Cheetah Marine International. The pair will work together to develop a new range of EV-ready workboats and aims to accelerate the evolution of dependable electric boats for commercial and leisure use."
1100	Proteum	B5	Demonstration - OXE Diesel outboard - OXE Diesel outboard distributed by Proteum is built for commercial applications with up to 60% better fuel economy and than a petrol outboard and with longer service intervals.

1100	Volvo Penta	B9	Demonstration - MHO vessel - MHO-Co's new crew transfer vessel CTV will be demonstrating the novel technology onboard, diesel-electric operation, low fuel consumption Dynamic Positioning System-mode and new Human Machine Interface (HMI).
1130	Goodchild Marine	D47	Briggs Marine Contract Announcement - A contract award by Briggs Marine for an ORC 121 pilot vessel. Briggs Marine's sixth ORC Pilot Boat will be fully road transportable and available for charter to ports around the UK. This represents a continuing business relationship between these two successful companies.
1200	Oscar Navigation	D19	OSCAR Sentry - OSCAR Sentry offers an intelligent alarm system for both collision avoidance and for approaching objects when at anchor, increasing safety in all conditions. By recognizing and tracking floating persons, OSCAR Sentry can support SAR efforts and MOB recovery.
1230	Rupert Ribs	VB04	Rupert Ribs - The Rupert-R series is a collection of Rigid Inflatable Boats for versatile open-water trips to handle everything from calm days to stormy seas. The RIB design is light, high-performance and dependable, and the Rupert-R represents more than two decades of refinement. Rupert's expertise is based on experience building professional boats for international clientele.
1245	The Civil Engineering Contractors Association (CECA)	Conference Room 2/ Online Session	CECA - Responding to the Climate Challenge - This session will deliver speaker presentations + a panel discussion representing HVO Fuels and Low Carbon Concrete and innovation within the civils marine environment.
1300	Zelim	VB02	Zelim: Swift Rescue Conveyor - The patented overboard rescue conveyor capable of rapid mass casualty rescue. Developed by experienced search and rescue personnel it recovers people, whether conscious or unconscious in any orientation, in less than 10 seconds. Rapidly deployable, the Swift is operated by a single button, by a single person with no manual handling required.
1330	SMG	B67	Launch of the Shakespeare Dorsal Aerial - Dave Manasseh from Shakespeare will introduce the Shakespeare Dorsal Aerial on the SMG stand
1330	Ultraguard Antifouling	Q55	Demonstration - Ultraguard Antifouling - Explanation of the process that Ultraguard uses to prevent biofouling without the use of chemicals or biocide.
1400	Watermota	A27	Doosan Tier III marine engines - Launch of the new DOOSAN Tier III marine engines and SCR systems
1400	British Tugowners Association and the Workboat Association	Conference Room 1/ Online Session	Workboat Association Safety Forum in partnership with the British Tug owners Association - Join the British Tugowners Association and the Workboat Association to discuss and learn more about MOB Recovery. Having drafted an industry guidance document on MOB Recovery the associations invite all Seawork attendees, especially anyone with MOB expert knowledge, or user/purchase experience of equipment.
1430	Landau	E51	Launch of new blast and spray facility - New blast and spray facility at Marchwood Military Port with state of the art equipment
1500	Artemis	F52	11m foiling workboat - Earlier this year, Artemis Technologies launched the world's first 100% electric foiling Workboat, a technology demonstrator of the transformative Artemis eFoiler® system, which offers maritime operators commercially viable emission free solutions. It has varying applications within workboat, passenger ferry, crew transfer and leisure sectors.
1500	Volvo Penta	B9	Demonstration - MHO vessel - MHO-Co's new crew transfer vessel CTV will be demonstrating the novel technology onboard, diesel-electric operation, low fuel consumption Dynamic Positioning System-mode and new Human Machine Interface (HMI).
1500	Yacht Brokers, Designers & Surveyors Association (YBDSA)	Conference Room 2	YBDSA Small craft surveyor's forum

1530	Selene Marine	E133	Marine software fleet management - Selene Marine's Fleet Management Solution (FMS) is a Class NK type approved, web-based and highly secure ship management tool. Designed by ship managers, for ship managers, FMS offers the best of technological advancement and real-world experience in a cost-effective and functional platform.
1600	Women in Marine Industry	Maritime Journal VIP Lounge	Seawork's Women in Marine Industry event returns in person for Seawork2022. - Join our inspirational speakers as they share their stories, their challenges, and their achievements. The event offers women in the commercial marine industry an opportunity to share career experiences and know-how, renew and expand networks, and hear about key industry developments.
1600	Maritime & Coastguard Agency	Conference Room 1	MCA New Workboat Code Update - An insight into the development of the Codes of Practice for Small Commercial Vessels.
1700	Cardboard Boat Regatta	Seawork Marina	The Cardboard Boat Regatta, sponsored by Knighthood Marine & Allsalt Maritime - Home of Shoxs and Kinetix, returns for 2022 This years' theme will be "Great Navigators," to honour the discovery of Ernest Shackleton's Endurance earlier this year.
THURSDAY 23 JUNE			
0900	Maritime UK	Conference Room 2/ Online Session	Maritime UK June networking meeting - All Seawork attendees are welcome to join Maritime UK for their June breakfast networking meeting in Conference Room 2. Hear all the latest from Stuart Baker, MD at Maritime UK.
0900	Commercial Marine Conference	Conference Room 1/ Online Session	Commercial Marine Conference - Hybrid & Electric Propulsion Conference Real World Implementation of Hybrid & Electric Propulsion Solutions.
1030	Maritime Training & Careers Day	Seawork	Maritime Training & Careers Day - Seawork is delighted to be working with Maritime UK and the Solent LEP to deliver a programme focussing on careers in the commercial marine industry at Seawork 2022.
1030 1100	Goodchild Marine Dacoma	D47 VB05	Embargoed announcement Demonstration of the Airkeel vessel stabiliser - The air-filled hydrodynamically optimised body is mounted to the hull and moved from side-to-side to counteract heel and wave-induced motion. Airkeel can increase the cargo and crane capacity of work and crew boats by a factor of two or more.
1500	Volvo Penta	B9	Demonstration - MHO vessel - MHO-Co's new crew transfer vessel CTV will be demonstrating the novel technology onboard, diesel-electric operation, low fuel consumption Dynamic Positioning System-mode and new Human Machine Interface (HMI).
1130	Propspeed	A25	Demonstration - Corrosion Protection - Prospeed and Marine Protection Systems have partnered to educate and provide innovative solutions to prevent corrosion and minimise damage to vessels and the marine biosphere. See a live demonstration in the Corrosion Protection Tank, showing relationship and performance of various anodes and coatings."
1400	MSE International	Conference Room 1/ Online Session	Port decarbonisation and smart energy solutions for ports; case study PESO - This workshop will discuss the issues surrounding port decarbonisation and present the Port of Portsmouth as a case study for combining renewable generating capacity with innovative energy storage solutions and advanced energy management systems.
1500	Volvo Penta	B9	Demonstration - MHO vessel - MHO-Co's new crew transfer vessel CTV will be demonstrating the novel technology onboard, diesel-electric operation, low fuel consumption Dynamic Positioning System-mode and new Human Machine Interface (HMI).
