Communities are being stressed and assaulted by the escalating effects of the climate crisis: wild fires, droughts, floods, conflicts, energy insecurity, poverty, sickness and inequality. Given the opportunity to build back, let’s explore how we can build better buildings, better communities and a better world. **Share your ambitions:** projects, policy, finance, design & art, safety & health, social security & justice. Imagine and demonstrate what’s possible. **Passive House is the platform.**

### Schedule

**Thursday, September 28**  
**Online-Only Conference**  
+/-16 expert topic-specific presentations and Q&A sessions. Sessions to be related to, and reinforce in the October 4-5th in-person program.

**Tues - Wed, Oct 3 & 4**  
**Workshops in Denver**  
1.5 days of topic-specific workshops related to October 4-5th program.

**Wed - Thursday, October 4 & 5**  
**In-person Denver Conference**  
1.5 days of expert presentations and panel discussions (accessible online), live expo, and in-person networking happy hours, including presentation of Design Competition Awards.

**Friday, October 6**  
**Region Building Tours**  
In-person tours of Passive House developments.

### The Passive House Network 2023 Design Awards Competition

The competition will recognize climate-specific innovation in project design and detailing to address the site’s particular needs, local climate, and bioregion.

Entries are due on **MONDAY, SEPTEMBER 4th**, at Midnight Pacific Time. Winners will be announced at the annual PHN Conference in Denver, Colorado, on **Wednesday, October 4th**, at 6 PM Mountain Time. [Find out more.](#)

### Ice Box Challenge: Colorado Tour

A public installation event that demonstrates the power of Passive House design and construction.  
Fort Collins, July 1-15, Louisville, July 28-Aug 11, and Denver, Sept 9-23. [Find out more.](#)

### Priced for Participation

PHN Members, BIPOC, Veterans, Students, Teachers, and Non-Profit & Public Employees qualify for discounts. Early Bird pricing ends July 31.

### Partner with Us

Let’s work together if you’re a community organization, government agency, or global NGO working in the high-performance building space!
