Scan badges: Allows you to see who has scanned your badge.

Connections: Provides you with a list of people who you have connected with via, messaging and favouriting profiles.

EXHIBITOR & PRODUCT LISTS

Exhibitor List

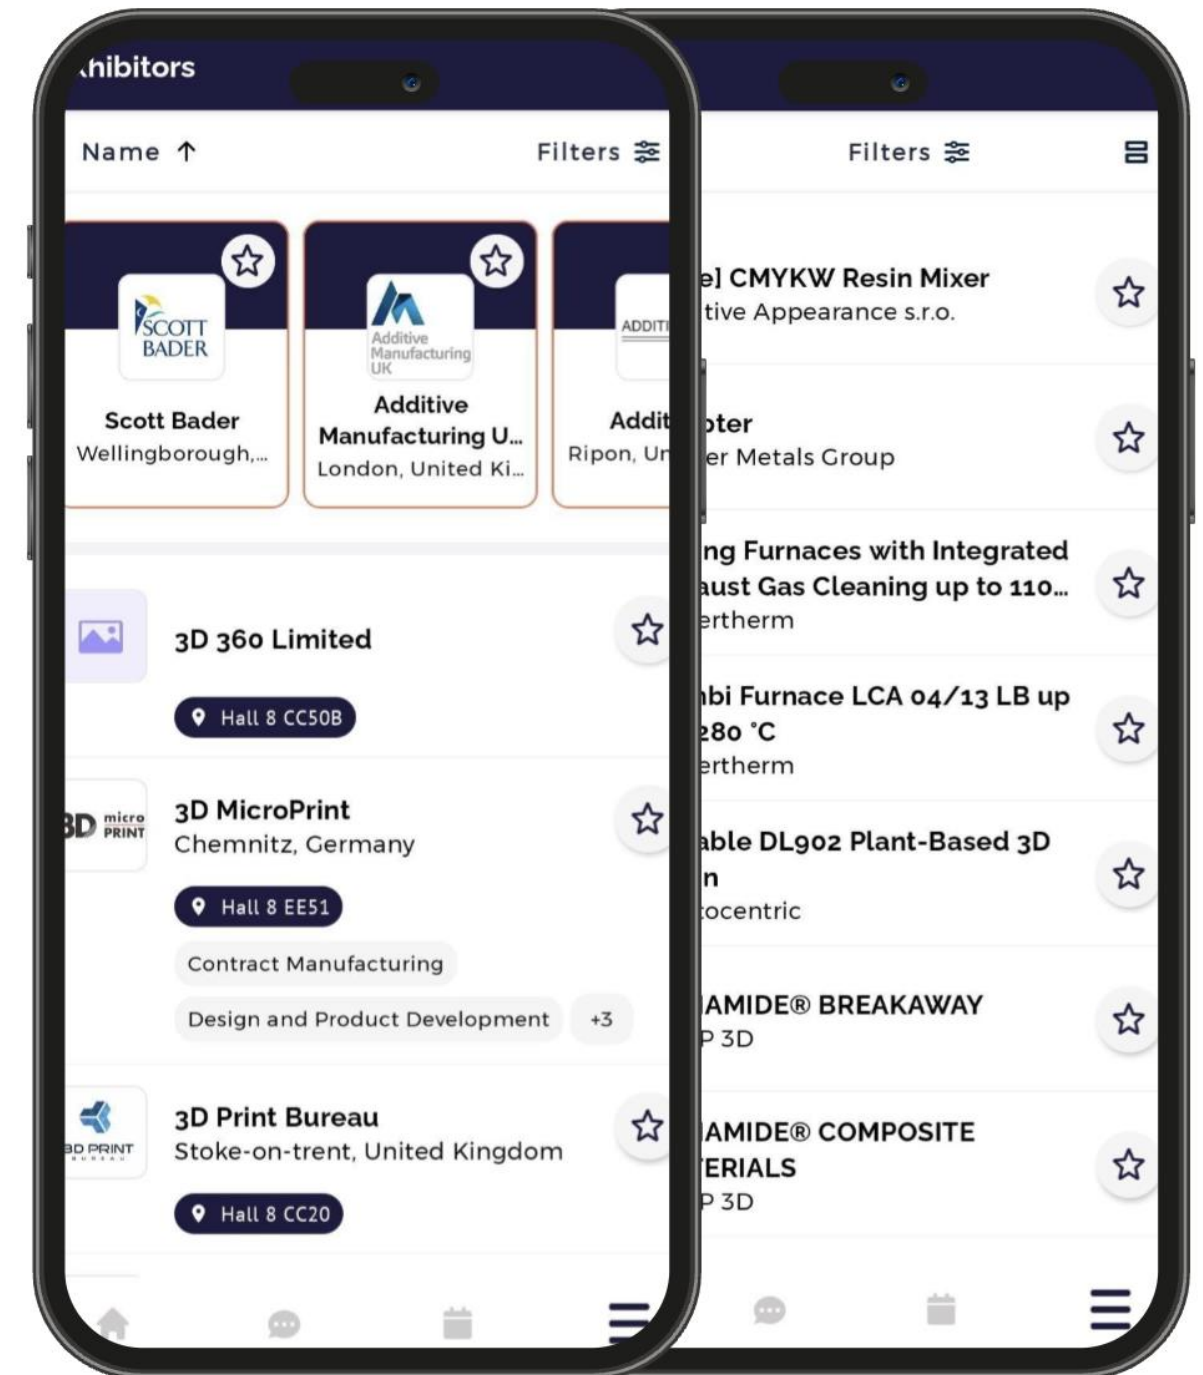

View all exhibitors attending the event in one place. You can easily filter them by country and product category

By selecting an exhibitor's profile, you can request meetings, mark the company as a favourite using the star icon, and send them a message.

Product List

Quickly browse the products that exhibitors have added to their profiles.

Click on any product to see more details and add it to your favourites. You can also filter products by exhibitor category, product category, and country.

MESSAGING & MEETING REQUESTS

To contact an Exhibitor open their profile and scroll down to the **Meet & Message** section. From here, you can send a meeting request or message them directly. When you message an exhibitor, they will receive an email notification.

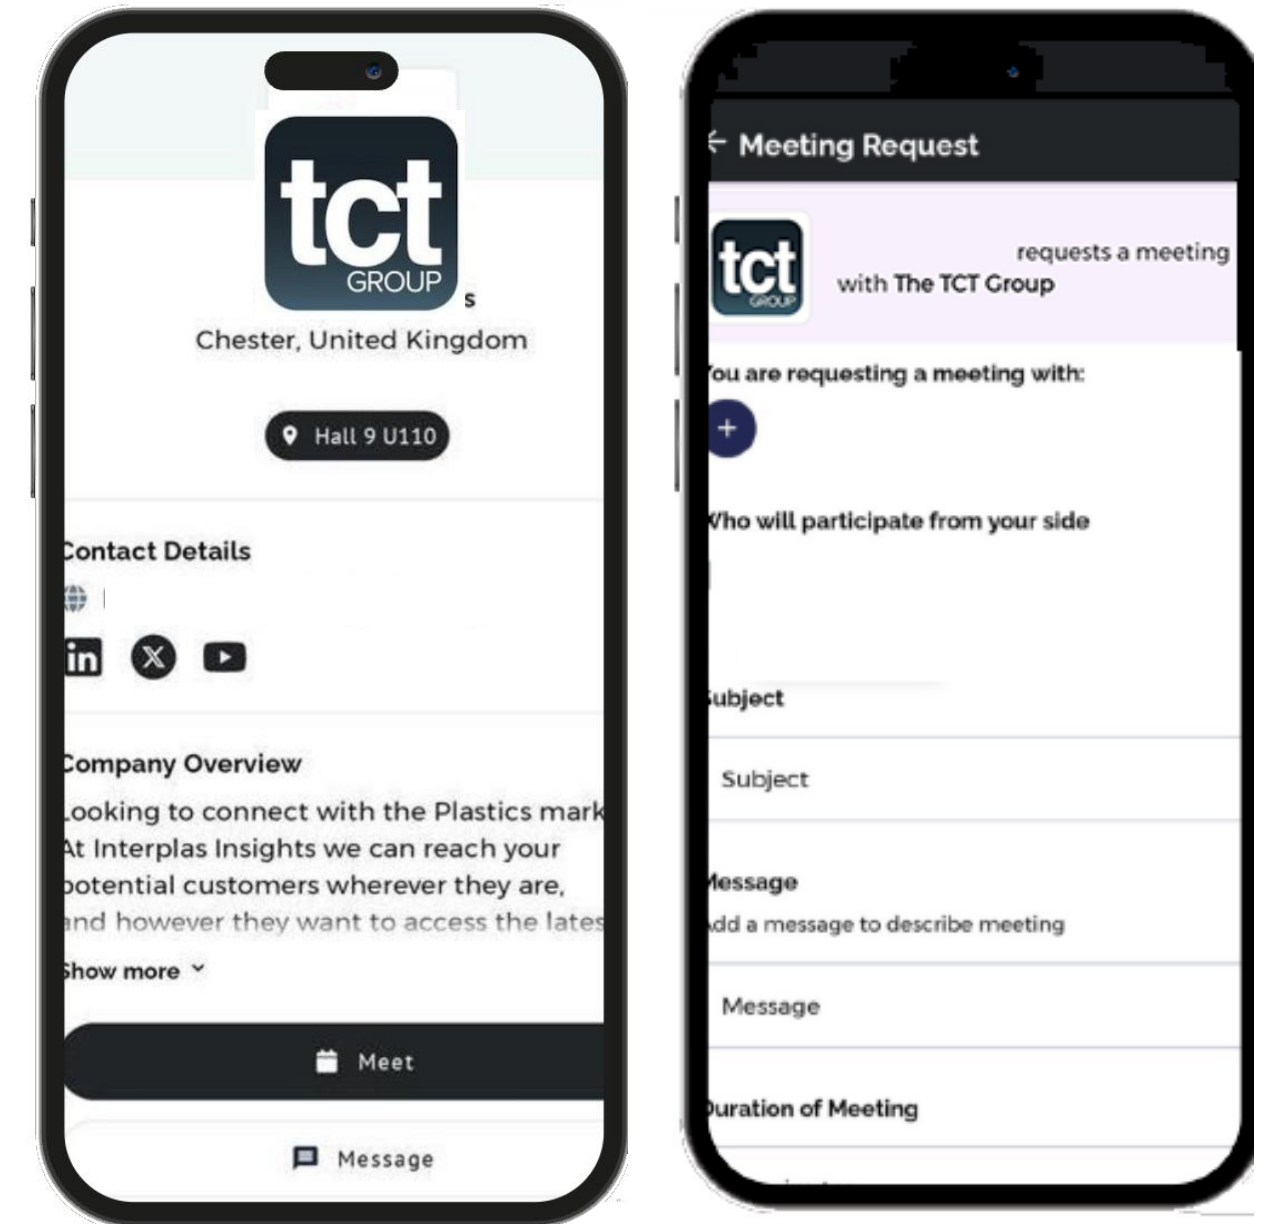

You can view all your messages and updates by selecting **Notifications** in the side menu or by tapping the speech bubble icon at the bottom of your mobile app screen.

To request a meeting, click on the icon and begin filling out the form.

In the first step you'll be asked for:

- Subject - what is the purpose of the meeting?
- Message - a short message about why you want to meet
- Location to meet

You'll then be asked to select a date and time for the meeting and then your meeting request will be sent to the other party when you click the Request Meeting button.

SESSIONS & SPEAKERS

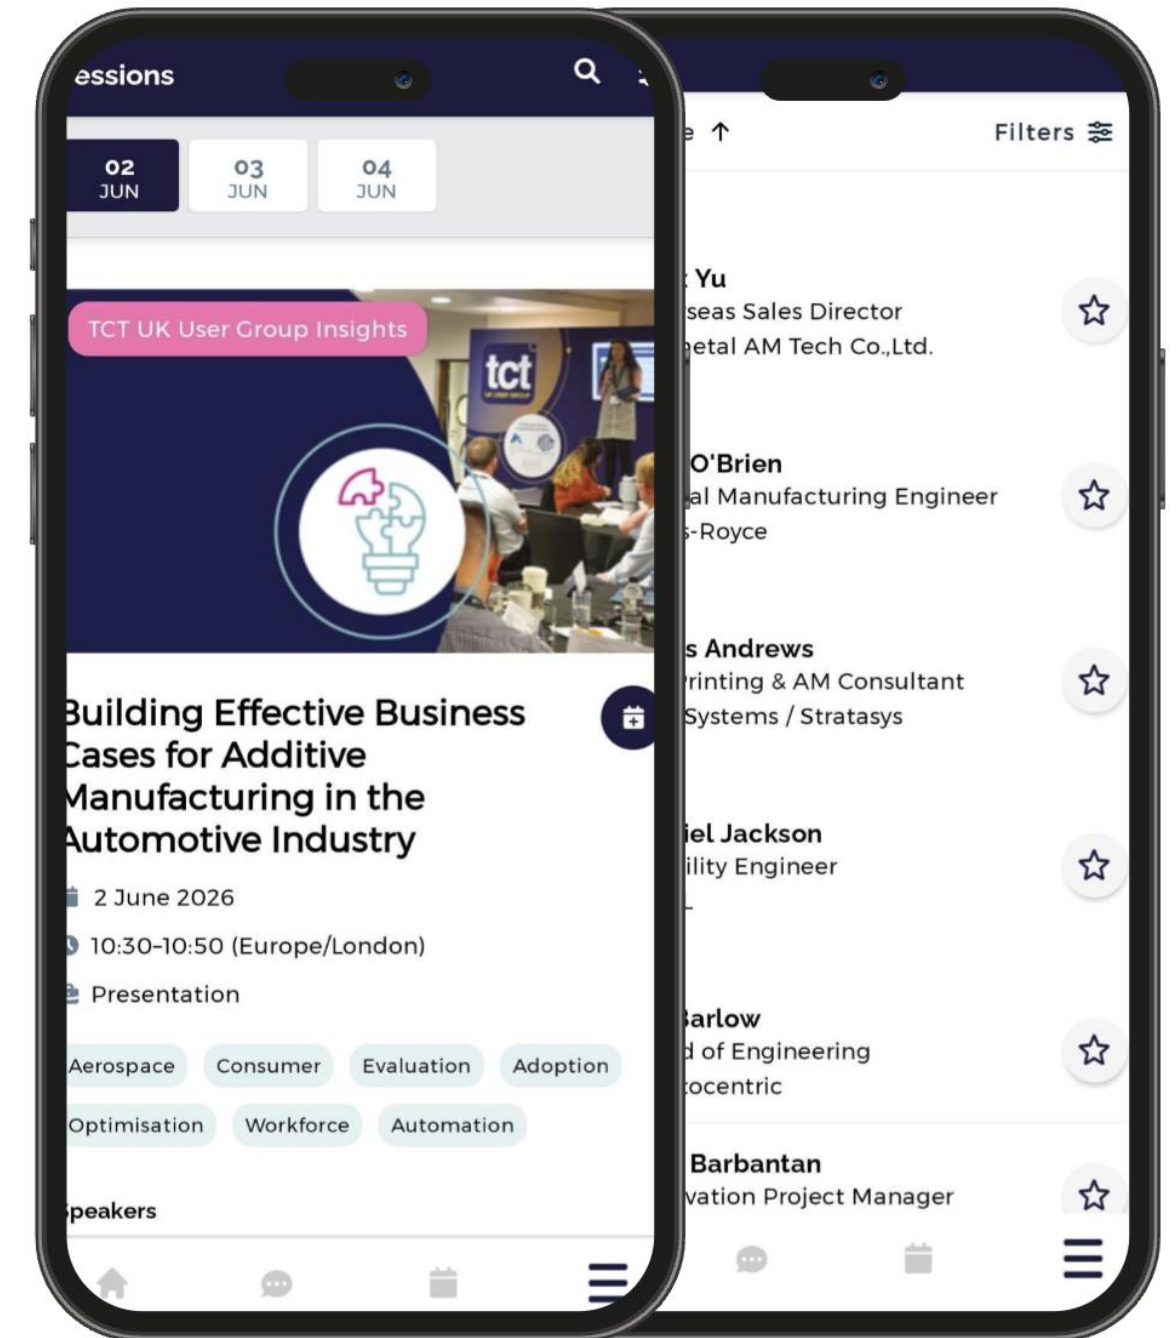

To view conference sessions, tap the menu in the bottom right of the app and select the **Sessions** tab. From here, you can browse all scheduled sessions by day and time. Select a session to view full details, including the description, timings, and speakers. If you'd like to attend a session, you can add it to your personal agenda so you don't miss out.

To view speakers, go to the **Speakers** tab. Tap on a speaker's name to open their profile, where you can find more information about their background and expertise.

You can also use filters within the sessions section to quickly find content that matches your interests.

The Session themes for this year are as follows:

- Technology Insights
- TCT UK User Group Insights
- Project TAMPA - Defence Insights
- Workforce Insights
